Dear Cecil,

It is with sincere gratitude that we thank you for your donation to the Patient Advocate Foundation (PAF).

Your contribution will assist us in our mission to provide personalized case management help to patients across the nation. It is through generous donations like yours that we can continue to help patients suffering with chronic or life-threatening diseases who experience barriers to their treatment due to practical necessities like transportation, lodging, insurance coverage and various out-of-pocket costs.

We share your interest in building a healthy community for all. With support such as yours, PAF has provided more than two million patients with direct support - in the form of real time patient navigation or financial assistance - since opening our doors over 27 years ago. In 2024, PAF served 193,894 patients, provided over \$208 million in financial assistance, and helped relieve roughly \$17 million in medical debt.

Your donation also helps us reach into rural and underserved communities across the country and lead national dialogues around health system change that puts the patient at the center of critical and timely healthcare issues. You truly are providing PAF with the opportunity to help one patient and family at a time, thank you.

With sincere appreciation,
